Meet Danielle Burr, Rentals Manager and Radio Accessory Specialist

Danielle is well known by our customers from her many years as the face of the Alcom Service Department where she helped customers to schedule installations, process warranty returns and ensure their equipment was repaired in a timely manner.

Danielle started with Alcom Electronic Communications in 1996 in the role of Receptionist and her duties quickly grew to include administrative tasks. In 1999 Danielle was promoted to Service Writer and she began to manage Alcom's rental division, Aries Network Systems.

In 2011 Danielle took on a new and exciting challenge. She completed the Motorola training program for Radio Communications Representatives and joined the Alcom sales department as Alcom's Radio Accessory Specialist. Danielle is now responsible for accessory sales and order fulfillment for all product lines and she continues to manage the Alcom rental division.

Winkler Fire-Rescue Conference – Alcom Was There

Every year Winkler Fire Rescue Department hosts a conference at the Winkler Fire Hall that has developed a reputation as a forum for professional development featuring knowledgeable Fire Service leaders from throughout North America.

This year's conference, which took place on March 16th and 17th, featured speakers from close to home. The presenters were Allan Gray, a member of the Dauphin Fire Department and instructor with the Manitoba Emergency Service College, and Dan Paulson, Assistant Chief with Saskatoon Fire and Protective Services.

Allan and Don provided insightful presentations focussing on the changes in the craft of firefighting, knowledge of construction types and fire fighter safety.

Alcom is pleased to have been able to contribute to the success of this year's Winkler Fire Conference.
